ARTICULATED ROBOTS

concept Recmi INDUSTRIE

Turnkey robotic lines

Case packing – Palletizing

TURNKEY ROBOTIC LINES

Simply industrialize your end-of-line production

Case packing

Palletizing

Pick and place

Postpress

Finishing - Mailing

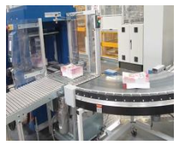

Packaging - Wrapping

Complete solutions

Product conveying lines

Belt, strap, roller, custom-made

Product collating

Positioning, accumulation, collectors...

Robotic cells

Adapted to the loads handled and to production requirements

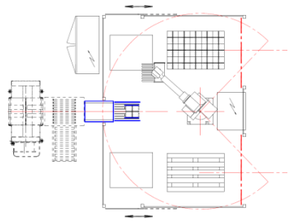

Specific grippers

Custom-made grippers for optimal product handling and precise placement. Additional functions can be added (measuring, tier sheet placement...)

Palletizing enclosures

Custom, compact and streamlined design
Single or multiple palletizing station
Modular and scalable solutions

Pallet management

Pallet magazines, dispensers, custom conveying, autonomous shuttles...
